VICTIM SERVICES & ADVOCACY

The function of the Victim Services and Advocacy Program is to **promote safety, healing, justice and rights** for crime victims and survivors. Being a victim of a crime is frightening and unsettling for the millions of Americans who unfortunately experience it each year. The program is designed to provide the following:

- Act as an advocate on all stages of victimization
- Ensure crime victims and survivors have a voice in our criminal justice system
- Empower crime victims and survivors to assist in rebuilding their lives
- Collaborate with law enforcement agencies, prosecutors, probation and parole departments, juvenile justice systems and social services in assisting all victims of crime
- Accompany victims and survivors to Court and Parole Board hearings
- Guide victims and survivors through media inquiries and engagements
- Refer victims and survivors to local, state-wide and national victim assistance organizations
- Work for legislative improvement to enhance victims' rights and public safety
- Conduct community events to commemorate victims and survivors

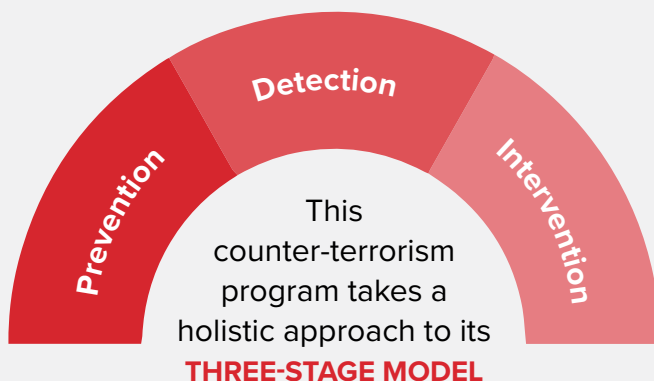

MISSING PERSONS

In 2018, **Crime Stoppers of Houston began offering Tip Line services and cash rewards in missing persons cases** when an investigator has determined that foul play is involved and/or in cases where a minor (16 or younger) has run away with a person that is 18 or older. A common example of the latter is a minor being lured away from a parent or legal guardian for sex trafficking.

COMMUNITY BASED COUNTER-TERRORISM PROGRAM

In partnership with former FBI special agent and national security expert, James Conway, Crime Stoppers of Houston launched a Community-Based Counter-Terrorism program.

It will take the engagement of an entire community that knows ideologies, recognizes indicative signs, and communicates effectively to protect our city from terroristic threats – both children and adults, school staff and law enforcement. Oftentimes, the opportunity to neutralize extremist behavior before it turns violent occurs at school-age. Whether a student makes threats to their school jokingly or angrily, it is still considered a criminal offense. Student presentations ensure that students know the repercussion of their actions, recognize indicators of dangerous behavior in other students, and understand when and where to take their concerns, including the Tip Line.
