VICTIM SERVICES AND ADVOCACY PROGRAM

The Victim Services and Advocacy Program promotes safety, healing, justice and rights for crime victims and survivors. It is designed to act as an advocate on all stages of victimization and ensure crime victims and survivors have a voice in our criminal justice system.

In 2021, Crime Stoppers of Houston identified a major gap in post-conviction advocacy services. To meet that need, we established our first of its kind Victim Impact Video Project which provides victims the opportunity to record their story in video format and submit that video to the Texas Board of Pardons and Paroles so that their story can be heard at all future parole hearings whether they are there in person or not.

To date, we have created 32 Victim Impact Statement Videos - 20 in our first round of videos filmed in 2021, and an additional 12 this year in 2023. Of the videos that we have already filmed, several have been used in Parole Hearings across the State of Texas and in all cases that they were used, parole was denied. As the word spreads about this important project, our team has worked hard to create a scalable process.

STATEWIDE EXPANSION

On May 30, 2018, Governor Greg Abbot unveiled his multifaceted "School and Firearm Safety Action Plan" in response to the Santa Fe High School shooting that occurred on May 18, 2018. His Action Plan includes expanding campus Crime Stoppers programs statewide. As the largest Crime Stoppers organization in the country, the Texas Criminal Justice Division asked Crime Stoppers of Houston to roll out our Safe School Program to as many Crime Stoppers organizations across the state - reaching approximately 1,800 school districts.

In response, we are committed to sharing our program, training stakeholders, developing curriculum, and engaging the community so that every Crime Stoppers organization operating within the State of Texas can offer their local schools and their entire community the same life-saving tools and resources we have here.

The SAVE (Safety Awareness. Valuable Education) webinar project was created in June of 2020 in partnership with the Texas Education Agency (TEA) with the purpose to inform, educate and provide resources on many topics that concern safety of schools and community. As of 2023, through this platform we have been able to reach 2,683 people statewide with our S.A.V.E. webinars via Zoom.

In 2023, we held 4 trainings to educate and inform Crime Stoppers organizations, law enforcement, school based law enforcement and ISDs. Since 2018, we've reached 291 Crime Stoppers groups/affiliates and others across Texas, 31 Crime Stoppers groups/affiliates from around the USA and internationally, and will continue to host quarterly trainings moving forward.

THINGS YOU SHOULD KNOW

Crime Stoppers may pay a cash reward of up to \$5,000 on all felony crimes that happen in the Greater Houston/Harris County area. Here are things you should know about our Tip Line:

- To be eligible for a cash reward, you must report your tip directly to Crime Stoppers of Houston.
- Crime Stoppers will never ask you for your name, phone number, address, or any other information that could identify you. We do not record phone calls or have caller ID. No one will know you called us unless you tell them.
- Once you give us your tip, you will be given a code number. This is the only way Crime Stoppers can identify you. Crime Stoppers cannot call you with the status because we don't ask for your phone number. You need to remember this number and provide it when you call back to check the status of your tip.
- When you call back with your code number we will let you know if your tip helped law enforcement arrest or charge a felony suspect/fugitive. If it did, you may be eligible for a cash reward and will give you instructions on how to retrieve your cash reward. You will not be asked to show any ID.

VICTIM SERVICES AND ADVOCACY PROGRAM

The Victim Services and Advocacy Program promotes safety, healing, justice and rights for crime victims and survivors. It is designed to act as an advocate on all stages of victimization and ensure crime victims and survivors have a voice in our criminal justice system.

In 2021, Crime Stoppers of Houston identified a major gap in post-conviction advocacy services. FELONY CASES ARE FEATURED ANNUALLY

Crime Stoppers offers cash rewards in missing persons cases when an investigator has determined that foul play is involved and/or in cases where a minor (16 or younger) has run away with a person that is 18 or older. A common example of the latter is a minor being lured away from a parent or legal guardian for sex trafficking.

TIP LINE SIGNIFICANT CASES

2016 HIGHLIGHTS

- **February 2016 – Bellaire Pizzeria Employee Killed in Robbery Attempt** - On Sunday, February 21, 2016, the Bellaire Police received a 911 call in regards to a possible robbery in progress at Reginellis Pizzeria at 5303 Bissonnet. Upon arrival, officers found Peter James Mielke, a 19-year-old employee of the pizzeria, had been shot and killed in a robbery attempt. The suspect shot Mielke several times after Mielke could not open the cash register. The suspect then left calmly without any cash or property. He was last seen walking southbound on Ferris Street. Crime Stoppers, with support of local media, assisted the Bellaire Police Department by hosting a press conference to announce an increased reward to help identify and locate the suspect responsible for this senseless crime. Five days after the Crime Stoppers press conference the suspect was identified and arrested.
- **February 2016 – Parking Lot Robbery** - On November 28, 2015, a female accompanied by her young child parked her vehicle when two suspects approached to rob her. One of them pointed a pistol at her stomach and demanded her property, while the other one searched and looked for valuables. The female begged the suspects not to harm her or her child. After taking what property they could find, both suspects ran off to a waiting vehicle. About a month later, a sketch of the suspect with the gun was constructed based on the victim's memory and was featured by local media outlets. On January 4, 2016, Crime Stoppers received a web tip providing the suspect's name, address and supporting pictures. The suspect was arrested on February 9, 2016.
- **April 2016 – Hit and Run of a three-year old boy** - On April 2, 2016, the suspect was operating a small red Chevy Cobalt and ran over a three-year old boy. Witnesses and video surveillance captured images of the suspect as he continued driving at a high rate of speed, dragging the child for approximately 140 feet. The suspect failed to stop and render aid to the child who was transported to an area hospital and treated for serious bodily injury. Local media outlets covered the story. On April 5, 2016, a tipster contacted the Crime Stoppers After-Hours Call Center providing the full name, physical description and cell phone number of the suspect. The tipster also advised the suspect panicked after the hit and run accident and had sold the vehicle. After following up on this information, the suspect confessed and was subsequently charged with this crime.
- **September 2016 – Man dressed as police officer robs woman in her driveway** - On Sunday, March 13, 2016, a woman arrived at her residence located at 600 block of Vincent St. in Houston, TX and was sitting inside her vehicle in the driveway when a white pick-up truck pulled in front of her. A man stepped out dressed as a police officer and asked her for her identification. She did not believe he was a police officer and refused to comply. He then pointed a handgun directly in her face and demanded her purse. Again, she refused. He then used a large "police-style" flashlight and struck her on her jaw causing her mouth to bleed. The man then entered her vehicle, took her purse and fired one shot into the vehicle. He then fled the location. HPD's Robbery Division sketch artist created a sketch of him that was disseminated to local media outlets via Crime Stoppers. On Thursday, September 1, 2016, a tipster called the Crime Stoppers tip line and provided identifying and other specific information regarding where police could locate the suspect in this case. The information was sent to the assigned investigators. He was later arrested and charged due to this information. Additionally, upon execution of the warrant, officers recovered \$8,000.00 cash, a Sprint cell phone, LG cell phone, Alcatel cell phone, 64 GB Apple iPad, 5 SD cards, and a stolen Luger 9mm semi-automatic handgun.
- **December 2016 – Victim on Metro bus assaulted for trying to stop man who was harassing two young female passengers** - On Monday, November 21, 2016, at approximately 3:30 pm, the victim in this case was riding a Metro bus to work in the 3500 block of Hardy St. in Houston, TX when he observed someone harassing two young female passengers also riding the bus. The person repeatedly attempted to inappropriately touch the girls and ignored their demands to leave them alone. The victim intervened and asked the man to leave the girls alone. The man became angry and confrontational. A verbal exchange ensued and the man threw a punch striking the victim in the face. Medical reports revealed the victim sustained several shattered bone fragments in his left eye and cheek area as well as severe nerve damage to the left side of his face. Doctors further advised that a future blow in this area could possibly lead to death. This story was immediately featured on local media along with a video/photo of the suspect in an attempt to generate leads. On November 22, 2016, a tipster contacted Crime Stoppers through the Crime Stoppers

Mobile App and provided the name of the suspect in this case. This information was forwarded to the assigned investigator and on November 30, 2016, the suspect was positively identified and charged in this case due to the tipster's information. The suspect was arrested on December 2, 2016.

- **December 2016 – Murder of Ignacio Ortega and 4-year-old Ava Castillo** - On November 7, 2016, the suspects' crime spree started at the 15200 block of Buckle Lane, in Houston, Texas where Mr. Ignacio Ortega was confronted and fatally shot multiple times in an alley way. month prior to these cases. He had been sentenced to 16 years for a string of 2016 Aggravated Robberies. Coincidentally, two of the locations he robbed in 2016 are the same location he robbed in this string of cases. Once he was arrested, the suspect confessed to the robberies and apologized for his behavior.

- **December 2022 - Killer of 82-Year-Old Caught** - In October of 2022, a concerned woman went to check on her 82-year-old brother after receiving a strange call from his number. When she arrived, she found the apartment located in a senior living facility had been broken into and her brother on the ground covered in blood. A plea went out to the community for information that included pictures from the facilities security cameras. Two months later a tipster contacted the tip line providing the name and location of the suspect featured in the news. Based on that information, the suspect was charged and arrested. He subsequently confessed to the Capital Murder.

2023 HIGHLIGHTS

- **March 2023 - Flirtatious Robbery Suspect** - A tipster called the tip line to provide the name of a man that was wanted for robbery. In December 2022, a woman was getting gas when the suspect began flirting with her. She told the suspect she had a boyfriend and attempted to get into her car. The suspect blocked her from being able to get in the car. With his hand in his pocket, he demanded her purse. Before fleeing the scene, the suspect asked the victim "Where's your boyfriend now?" Thanks to the tipster, the suspect was positively identified and charged.
- **April 2023 - Stolen Truck "Sold" on Craigslist** - In September 2022; police were made aware of a victim that was defrauded out of \$20,000. The victim saw a truck online and planned to purchase it from the seller. During the transaction, the victim gave the seller a cashier's check, but the seller insisted on cash. The victim got the cash and give it to the seller in exchange for the truck, a bill of sale and title. Unfortunately, when the victim tried to register the vehicle, he found out that the truck belonged to a rental company and was sold without their consent.
- **May 2023 - Tip Leads to Seizure of \$200k in Drugs and Weapons** - A tipster utilized the mobile app to provide information on a suspect that had an active warrant out of Jefferson County for Possession of a Controlled Substance. Law enforcement began surveillance on the location provided and observed the suspect enter the home with multiple vehicles and multiple people. They would arrive and leave within a short period of time. Believing that the location was a "stash house", a search warrant was granted and executed. When officers made entry they found Methamphetamine, Cocaine and Promethazine with a street value of \$199,785 along with 7 weapons valued at \$7,500.
- **June 2023 - Mass Shooting Thwarted** - A tip came in via the mobile app providing information on a university student that had some concerning and disturbing content on their phone. The tipster was concerned that the suspect had plans to carry out a mass shooting

event. This information was quickly relayed to the university police department. When they arrived, they found the suspect was undergoing a severe mental health crisis. They also found information in their phone that supported the tipsters' concerns. Due to the mental state of the suspect, they were immediately taken to a mental health facility for evaluation and treatment.

- **July 2023 - Fatal Hit and Run Fugitive Caught After Five Years on the Run** - A tipster contacted the tip line with the location of a fugitive that was charged with a 2018 fatal hit and run. At the time of the incident, witness reported hearing the suspect call someone stating "I messed up again. I've got to get out of here. Come pick me up!" Witnesses also described the suspect as extremely intoxicated with poor balance. Thanks to this tipster the families of the two victims killed will begin to see justice in this case.
- **November 2023 - Mom Killed In Front of Son** - A 34-year-old woman, accompanied by her three-year-old son and a friend, was driving when a man pulled up beside her and opened fire. Tragically, the mother lost her life, and her friend sustained injuries from the eight shots fired. Remarkably, the three-year-old in the back seat remained unharmed. Reports suggest that the suspect, in the midst of a paranoid episode, mistakenly believed the mother was following him, even though she was driving ahead of him. A person who shared vital information through the tip line played a crucial role in assisting law enforcement in apprehending the suspect.

VICTIM SERVICES & ADVOCACY PROGRAM

PROMOTING SAFETY, HEALING, JUSTICE AND RIGHTS FOR CRIME VICTIMS AND SURVIVORS

VICTIM SERVICES & ADVOCACY PROGRAM

Being a victim of a crime is frightening and unsettling for the millions of Americans who unfortunately experience it each year. Progress has been made in improving the rights of crime victims. Victims and survivors of homicide, sexual assault, child abuse, domestic violence and other serious offenses have transformed their victimization into a vehicle for ensuring that victims of crime receive justice, meaningful assistance and compassionate treatment.

MISSION IN ACTION

The Victim Services and Advocacy Program provides the following to crime victims and survivors:

- Advocate for crime victims through all stages of victimization.
- Assist crime victims and survivors in efforts to rebuild their lives.
- Assist in collaboration between law enforcement agencies, prosecutors, probation and parole departments, juvenile justice systems and social services.
- Accompany crime victims and survivors to Court and Parole Board hearings.
- Guide crime victims and survivors through media inquiries and speaking engagements.
- Refer crime victims and survivor to local, state-wide, and national victim assistance organizations.
- Work toward legislative improvements to enhance victims' rights and public safety.

ADVOCACY IN ACTION

In 2021, Crime Stoppers of Houston identified a major gap in post-conviction advocacy services. To meet that need, we established our first of its kind Victim Impact Video Project which provides victims the opportunity to record their story in video format and submit that video to the Texas Board of Pardons and Paroles so that their story can be heard at all future parole hearings whether they are there in person or not.

To date, we have created 32 Victim Impact Statement Videos - 20 in our first round of videos filmed in 2021, and an additional 12 this year in 2023. Of the videos that we have already filmed, several have been used in Parole Hearings across the State of Texas and in all cases that they were used, parole was denied. As the word spreads about this important project, our team has worked hard to create a scalable process.

ANNUAL EVENTS

Join us for our annual events:

- National Night of Remembrance: Every September
- Holiday Memorial Remembrance Tree Ceremony: Every December

KNOW YOUR RIGHTS

Do you know your rights in Texas? As a victim of violent crime in Texas, you have the following rights:

- The right to be notified of all court proceedings including cancellation and rescheduling.
- The right to receive information about the Texas Crime Victim Compensation Fund that provides financial assistance to victims of violent crimes.
- The right to have the magistrate take the safety of the victim or their family into consideration as an element in fixing the amount of bail for the accused.
- If you so request, the right to information about procedures in the criminal investigation of your case by law enforcement officials, and about general procedures in the criminal justice system, including plea bargaining, restitution, appeals and parole from the prosecutor’s office.
- The right to complete a Victim Impact Statement, detailing the emotional, physical and financial impact that the crime has had on you and your family, and to have that statement considered by the judge at sentencing and by the parole board were able to reach 921 people statewide.

LEGISLATIVE SUCCESSES

The Victim Services and Advocacy Program works tirelessly to fight for necessary legislative changes. Since its inception in 2018, the program has seen the following legislative successes:

- House Bill 2079 and Senate Bill 2210, also known as the ‘Sir Romeo’ bill, which allows families whose children are victims of attempted murder to apply for relocation expenses via the Crime Victims Compensation Program
- House Bill 1769, also known as ‘Clear Alert’, which allows law enforcement to send out alerts for missing adults when criminal conduct is involved
- Senate Bill 4372, also known as the Summer Camp Safety bill, which enhances the overall safety of campers and families
- Senate Bill 6, also known as the “Damon Allen Act” eliminates PR bonds for defendants charged with particular violent crimes.

2017-2023 SIGNIFICANT SCHOOL CASES AND SUCCESS STORIES

FEBRUARY 2017

Terroristic Threat at a Local High School: After school on February 7, 2017, a 9th Grade student told other students of his plan to place bombs in the school's cafeteria on the following day. The student went on to say that after the bombs exploded, while the students were fleeing the building, they would be shot. A tipster called Crime Stoppers on February 8th and provided that information. The tipster did not know the number of bombs the juvenile allegedly had or if the juvenile was working alone. An investigator immediately contacted a Campus Officer. The juvenile was arrested for 3rd Degree Felony Terroristic Threat and charged. No explosive devices were discovered on the school campus. The juvenile suspect was held at the Harris County Juvenile Detention Center for a period of days and then released into the custody of his parents. This plot was thwarted and the juvenile suspect was arrested due to the Crime Stoppers tip.

MARCH 2017

Extensive Property Damage at a Local High School: In March 2017, a local high school contacted Crime Stoppers for assistance on a case that involved property damage of the school's track and field area. The school police felt that the suspect was a student and asked for a Crime Stoppers flyer offering a reward for the case to be posted around the campus. Shortly after the flyers were posted an anonymous student tipster called the tip line and provided the name of the student suspect as well as a video of the suspect using a tractor to destroy school property. The estimated damages to the field and other property was over \$18,000. The suspect was arrested on April 11, 2017 as a result of the tip provided.

OCTOBER 2017

9mm at a Local High School: On October 18, 2017, at 10:56 a.m., a call came into the tip line regarding a social media conversation about a student at a local high school who had a gun in the waist band of his pants. Crime Stoppers notified the school resource officer of the student that had a weapon in the classroom. The resource officer and the assistant principle located the student in the classroom and instructed him to exit the class. After searching the student, no gun was located. The assistant principal instructed the remaining students to step out of the classroom to complete a thorough search for a weapon. A couple of rows over from where suspect was sitting, another student's back pack was located that contained a black Glock 17 (9) millimeter automatic weapon. The school resource officer took possession of the weapon and ensured it was secured. As a direct result of the student tipster, charges of possession of prohibited weapon in a weapon free zone were filed on the student that actually had the gun.

FEBRUARY 2018

Self-Harm by a Local High School Student: On February 27, 2018, a tipster sent a message through the Mobile Crime Stoppers App providing information on a student who cut her herself and believed she was in danger of causing additional harm to herself. The tipster identified where the female cut herself and that she is a 9th grader at a local High School. The Crime Stoppers investigator contacted the Assistant Principle and advised a student may be harming herself by cutting and

suggested she and the school nurse contact the student. The Assistant Principle spoke to the student and verified that she had indeed cut herself on the arms. This occurred due to a break up with her boyfriend. The Assistant Principle reached out to the mother and was able to provide her with some literature and resources for counseling. Based on the tip, the students file will be noted that she is a possible harm to herself and close attention will be paid to her by teachers and counselors. The tipster is receiving a Crime Stoppers reward for providing information that led to this student being identified and helped.

AUGUST 2018

School Threat at a Local High School: In August 2018, Crime Stoppers of Houston received a tip through the mobile app regarding a threat against a local school. The tipster said that another student was planning to shoot people the following Monday. Crime Stoppers quickly notified the school and law enforcement. When questioned the student suspect denied the allegations but did admit to speaking with two friends about guns. The friends asked the suspect if he wanted to shoot anyone to which he answered no. He did admit that he had access to guns at home but that they are locked in a safe. The suspect also said that he was sad from being bullied and made fun of about his stutter. School officials notified the suspects parents and gave the student an administrative discipline.

Inappropriate Pictures at a Local High School: On August 24th, 2018, Crime Stoppers of Houston received a tip through the website regarding inappropriate pictures of a female student that were being shared. The tipster provided the name of a male student that posted and texted the pictures. Crime Stoppers contacted the school administrators who were able to determine that one of the suspects did in fact have pictures of a female student and posted them on a social media site. As a result of the tip, the male student received an administrative discipline.

FEBRUARY 2019

Attempted Suicide of a Local High School Student: A student tipster called the tip line in February 2019 reporting they were worried that a friend might commit suicide. The student in question had been cutting their arms and had attempted to kill themselves several times in the past and recently cut their wrists to the point of passing out from blood loss. The tipster was very worried because the student was talking a lot about suicide that day and they were afraid he/she would actually go through with it. The school counselor was notified and assessed the student and a safety plan was put in place for the student and their family.

APRIL 2019

Self-Harm at a Local Junior High: A mobile app tip was received in April 2019 regarding a student that had made threats to commit suicide. The tipster reported that the student had a traumatic experience a few years prior and "just doesn't want to deal with it anymore". The student was also felt extreme stress around school, being a good role model and friend. School counselors were notified and reported back that on a threat scale of 1-10 the student was at an 8. As a result of this tip, the student and their parents received administrative support.

AUGUST 2019

Threats at a Local High School: In August 2019 two students got into a fight at a local high school. The aggressor received a three-day suspension and proceeded to make very explicit threats against the other student on social media. An anonymous tipster utilized the Crime Stoppers mobile app to report the threats. School officials were notified immediately and steps were taken to protect the victim.

JANUARY 2020

A Houston Area High School had a weapon related fatality and had our Deputy Director speak on the Tip Line to educate on what to do in the event of knowing about a situation that may occur or has occurred. As well as how to use the mobile app or call the tip line number, what the process looks like and how to potentially receive a cash reward.

JANUARY 2021

A Houston Area High school had a situation in the fall semester surrounding explicit content and relational safety. After this situation occurred the counselor reached out to the Safe School Institute and had us present to their th-12th grade students on Teen Dating Violence to bring awareness around the topic but also laws, consequences and long term affects.

APRIL 2021

A Fort Bend Area Middle School had us out to present on Cyber Safety. In between presentations, the education specialist was approached and told that after they had finished with the 6th grade and 7th grade presentation, there had been 4 disclosures about bullying and theft of student items on campus that they were able to solve and return the items back to the owner.

OCTOBER 2021

A Houston Area Elementary School had us out to present on Bullying Prevention. The counselor then followed up with the education specialist who presented and made them aware of a bullying and harassment situation regarding a group of students in one of the grades. She reached out to make sure that she was following the proper protocol of reporting the bullying / harassment situation. This then lead the Safe School Institute to create Educator Flow charts to assists educators and professional safe in the school system when handling certain situations and what potential next steps are.

JANUARY 2022

The Safe School Institute received numerous requests from school counselors across the Houston area for resources specific to preventing student vaping. To address this growing trend, the team created a vaping specific student presentation, post-presentation assessments, and held virtual webinars (SAVE Webinars) designed for school educators, admin, school staff, and other Crime Stoppers organization across the state to best empower schools across Texas.

JANUARY 2022

A Harris County Charter School had an incident with their 11th grade students and reached out to the Safe School Institute to request the Teen Dating and Sexual Misconduct presentation. We spoke to their 11th graders about the legal ramifications of teen dating violence and sexual misconduct. Additionally, we talked about red flags, consequences and how to advocate for oneself and others. As a preventative measure, we also spoke to lower grades that day as well, as a form of prevention on this topic.

APRIL 2022

A Fort Bend area Middle School invited us to talk to 6th, 7th, and 8th grade students about cyber safety. During a discussion about the Tip Line, the campus Safety Resource Officer reiterated the use and importance of the Tip Line. Shortly after that presentation, the principal told our team that several 6th graders reported information they had about incidents that had occurred recently. Administration was able to recover stolen goods and intervene in a bullying situation.

NOVEMBER 2022

A Montgomery County Middle School invited Crime Stoppers out to talk about Cyber Safety with their 6th and 7th graders. After one of the presentations, a group of students came up to the presenter and shared their concerns about a new app they had been using called "GAS". The students shared that the app was asked for personal information like full name, school, and grade. Our presentation raised concerns about the app among the students, so they asked our team for advice on what to do. The presenter was able to help them figure out the safe thing to do, as well as provide school staff with some information to help support the students.

2023

The Safe School Institute team was invited to present on teen dating violence and sexual misconduct at a high school in Baytown, Texas. After the presentation, a student personally thanked our staff presenter and shared they had recently had a family member struggle with dating violence in a relationship. The student empathized with how vital the conversation points are to young adults and validated the red flag behaviors highlighted in the presentation compared to what her family member had experienced.

A few days after providing a virtual presentation on cyber safety to teen students at a local school in Houston, Texas, a student at the campus reached out via email to share that they were being bullied by a fellow student and were concerned for their wellbeing. The Safe School Institute team responded to the student and applauded them for their courage, shared the incident with the counselor on campus, and connected this student to the resources and support they needed.

At the conclusion of a human trafficking presentation at a local middle school, our team received positive feedback from the students on the Light 2024 video done by our partners at Goya Foods. The students really like it and it has really made an impact on how they see human trafficking, specifically how it could happen to a student just like them.

After facilitating a presentation on bullying prevention to 5th graders at an elementary school in San Antonio, Texas, the counselor informed our team that students had improved their treatment of one another. Students also took the "on Wednesdays we wear pink" from Mean Girls and made it into a day where they did intentional acts of kindness. A parent even got involved and made shirts for the entire 5th grade cohort.

Following a presentation in Seguin, Texas, a student came forward asking our education specialist for more information about the Tip Line, disclosing that they were going to call the Tip Line regarding dating violence that was occurring to her friend.

Following a presentation on teen dating violence and human trafficking prevention at an early college preparatory school, a student came forward, disclosing concerns about an online relationship she had been engaging in. The counselor was able to offer ongoing support after her disclosure.

STATEWIDE EXPANSION

Through our Statewide Expansion efforts, our team strives to be a resource and a solution for school safety education. We currently offer the following to help all school communities across the state of Texas:

- Statewide Trainings
- S.A.V.E. Webinars
- Safe School Presentations across Texas (outside of Harris County)

STATEWIDE TRAININGS

BACKGROUND

On May 30, 2018, Governor Greg Abbott unveiled his multifaceted “School and Firearm Safety Action Plan” in response to the Santa Fe High School shooting that occurred on May 18, 2018. His Action Plan includes expanding campus Crime Stoppers programs statewide. As the largest Crime Stoppers organization in the country, the Texas Criminal Justice Division asked Crime Stoppers of Houston to roll out our Safe School Program to as many Crime Stoppers organizations across the state – reaching approximately 1,800 school districts.

In response, we are committed to sharing our program, training stakeholders, developing curriculum, and engaging the community so that every Crime Stoppers organization operating within the State of Texas can offer their local schools and their entire community the same life-saving tools and resources we have here.

In 2018, we held our first quarterly training at our headquarters, followed by 6 more in-person quarterly trainings through February 2020. However, with the onset of COVID 19, we moved our trainings to a virtual platform for the remainder of 2020 through present. We’ve **reached 291 Crime Stoppers groups/affiliates within Texas**, 31 Crime Stoppers groups/affiliates from around the USA and internationally, and will continue to host quarterly trainings moving forward.

TRAININGS

We began preparing to roll out this initiative by engaging with each organization, over a 4-week period in June 2018, to determine their interest in replicating our Safe School Program in their area.

- 173 Crime Stoppers organizations and ISDs statewide responded to our extensive survey with the following outcome:
- 143 organizations or 88.27% are requesting a copy of our entire Safe School Program
- 123 organizations or 77.85% are ready to send a representative to Houston immediately for training
- 120 organizations or 82.76% are asking for our branding guidelines to make the statewide look of Crime Stoppers more cohesive

The training course content offered is as follows:

- Welcome & Safe School Program 101
- Creating a Curriculum
- School Program In Action & Tip Line
- Safe School Institute & Marketing Panel
- Statistics & Fundraising

STATEWIDE TRAININGS | TESTIMONIALS

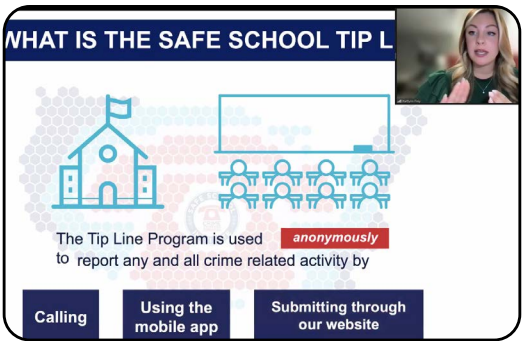

Overall the training was great. The spreadsheets that Nichole shared are amazing! The Lt. did an amazing job of explaining the relationships between agencies and organizations. It was also very evident that all the presenters love their jobs and that is exciting to see. I can not wait to get the program started in our district.

Again that you so much for providing this virtual training. I thoroughly enjoyed it. Very informative, I'm ready to get our program started!

VICKI MERCADO
Safety Coordinator, Duncanville ISD (TX)

Thank you for inviting me to the training! I live in Tucson, Arizona and we are two hours behind Houston, so your 8:30 am start is 6:30 am for me. I was so excited to join your first presentation on Monday morning that I started my day much earlier than usual. I was really glad I did... definitely worth it. Thank you!

S.A.V.E. WEBINARS

2023 S.A.V.E

In addition to our quarterly statewide trainings, we have a created program named S.A.V.E. – Critical Conversations that SAVE lives. In partnership with the Texas Education Agency (TEA), we began presenting the webinar series, S.A.V.E. (Safety Awareness, Valuable Education). It serves as a platform to inform, educate and provide resources for teachers, school administrators, school based law enforcement, school related safety personnel, as well as all Crime Stoppers organizations on the many topics that concern the safety of our schools and community.

S.A.V.E. webinars are offered every Monday at 10:00am CST.

SAFE SCHOOL PRESENTATIONS ACROSS TEXAS
(outside of Harris County)

2023

In 2023, the Safe School Institute expanded its statewide team to ensure that every student, educator, law enforcement officer, and parent had free access to preventative education. We now have a robust team of presenters to spread awareness and valuable education on personal and school safety subject matter.

This team is responsible for facilitating presentation requests outside of the Greater Houston Area and building relationships with school campuses and districts across major cities and small towns.

Last year, we educated 30,477 students, 8,257 school staff and law enforcement personnel, and 3,366 parents in Texas. Program development through partnership building has been crucial to our growth and success.

- We continue to collaborate with the Texas Education Agency through monthly coalition meetings, work closely with Education Service Centers, and participate in partner councils in Austin, San Antonio, Dallas, and Greater Houston.
- By the end of 2023, our team consisted of five dedicated individuals: Statewide Director Jenna Fondren, Statewide Manager Ernesto Reyes, Statewide Education Specialists Cally Conklin, Addie Carlson, and Juliana Aguilar.

2024

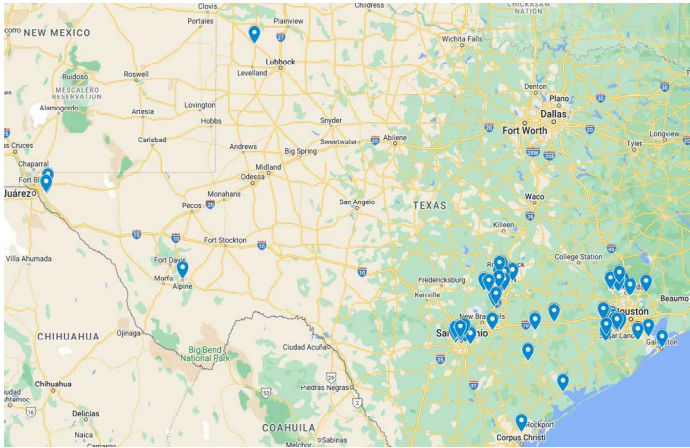

In 2024, we will persist in facilitating presentation requests outside of Harris County while further strengthening our relationships with campuses and districts throughout Texas. Our commitment remains steadfast in serving the Texas community and advancing the mission of the Safe School Institute through education and direct services.

- This year, our statewide team aims to reach 35,000 students, 10,000 school staff and law enforcement professionals, and 5,000 parents. We strive to demonstrate that the Safe School Institute not only provides resources but also offers tangible solutions for school safety education. We eagerly anticipate continuing our efforts to ensure the safety of Texas schools!

MEDIA ENGAGEMENT

Since inception, support from local and national media partners has played a critical role in the crime fighting and prevention industry. This support has allowed Crime Stoppers of Houston to thwart criminal activity and educate the public on prevailing and timely public safety issues in an area with a population of over 6.18 million.

Through digital media, online blogs, television and radio interviews, print publications and social media marketing, we have furthered our efforts of creating a safer community for all those who call Houston home.
