

SUBSTANCE USE PREVENTION

What are Drugs? Life Changing.

Did you know that **26.5% of Houston Area High School students** reported that they were offered, sold, or given an **illegal drug on school property.**

(CDC YBRS 2021-2022)

Experimentation at a young age can lead to a higher chance for **addiction** and cause a **stunt** in **brain development.**

Dependence/addiction does not happen **overnight.**

Fentanyl is often **hidden** within other substances.

All **drugs** can have risks and risks are **not always visible.**

It only takes **2mg** (equal to 1 grain of salt) of **fentanyl** to cause someone to **overdose.**
